## CQ from the President

We are off to the start of a new year and have a new Club Presidency. We look forward to serving the club and its members. Winter is upon us so we will be spending more time indoors and perhaps be closer to our radios. This is a great time to hone our skills and try new modes of operation. Perhaps you have expertise in a particular aspect of amateur radio. We hope you can share it with other club members. One of the great parts of amateur radio is being an Elmer to others. This is what makes the hobby grow and inspires others to try new things. I hope that through the course of the year we can all Elmer new and learning hams. I am hoping to get a new antenna up and try my hand at contesting and DX. I also want to learn how to use IRLP. What are the rest of you looking forward to trying? Let's make it a fun year.
